

Abstract:

One of the phenomena that current society is being faced is globalization phenomenon. Extreme dimensions of this phenomenon is so extreme that has been influenced all facets of life including, science, technology, culture, society, politics, and economic. Nowadays, consistent adaptation of urban system as an open system with modern conditions and external evolutions provide this condition that in globalization realm put more attention toward characterization of people and factors influencing space organization, and urban system. As urban areas are on the heart of all evaluations and national, and supranational phenomena; Mashhad as the second religious metropolis of Islam world has not been excepted and globalization wave has been influence all aspects specially urban development and dominated urban planning thoughts in a way that most of these impacts is observable. The study tries to recognize conditions of metropolis Mashhad, special and obstacle of role execution in realm of globalization based on comments of citizenship, experts, directors and FAHP model. Furthermore, to reach to an administration guideline by use of SWOT model. Conducted analyses represents that metropolis Mashhad as the second religious metropolis of Islamic world, has a weak position in chains of global urban areas and for raising of position needs of regular planning from urban executors.
