

## **Abstract**

Landscaping and architecture that today many issues in terms of urban development is proposed. Beauty and aesthetic principles of the distant past were known by the Iranians. The aim of this study was to investigate and evaluate strategies to promote a culture of beauty and aesthetics of the citizens is the city of Zabol. Methods This cross-sectional study of methods and data collection for documentation and library studies is based. The population in this study is an important loss of Zabol residents. According to the last census was conducted in 1390, 152 371 persons and 322 persons for the sample to sample is required. The results can be explained in two parts, the first part of the awareness and preparedness of the citizens of the city of Zabol city of culture and aesthetics are beautiful and historical city of Zabol in the second part shows that a lot of that is the symbols and the spaces attractive city for residents and Bazdyknndhgan of this landscape is the landscape. However, because of the beauty and aesthetics of city managers and citizens of Zabol current perspective, the city has taken on a negative face.
