

Abstract

Time is one of the elements that has a very wonderful effects on ,plot,stage and theme of the story . Gerard Genette (1930)s is one the the most famouse viwers of the time's element on narrative part of the story .in his viwe ;time is the basicaly element to achieve every narrative,it can be achieve the whole story with causality ,also he devided the time to two diffrent kind,one is narrative's eagle time which is the amount of time to read the narrative's text and the other one is time's purpot ,which is the amount of time that events happen in a story .the Genette concentration is on time's stage and the two other basic part,the time and the chain _mark of events that has 3 levels in it,frequency,continuance and good ordering . One of the most famouse novelist in Arabic contemporary is Arab Ebrahim Alkoni(1948)s who had a very important role in achieving the long story in arabic litrature His novel are about the relationship of human and the nature of desert and the creature's. The novel Al-bahth an Al-makan al-zaiiegh Is one of the prominent novel among the100 hundered in Arabic Which was type of new romantic that is written in philosophy approach One of the most prominent character of this novel is the operation of time in its different type and which in peresent research with the help of analytical discriptive method and with Citation of behavioral pattern Propesed by Gerard Genette, are trying to achieve this important subject The approach of this research said that the writer has used of trinal time relations of Gérard Genette. The method of foresaid novel is based on the incoherent time line of break and turning back that it have high time retrospective .
