

Abstract:

In the history of each society there are some events that affect some writers who feel responsibility to accompany with militants in their way and make their devotion eternal. They want to pay their cession to their homeland and reposit this cession to their hameland and reposit this culture to the next genevation.

Razieh Tojjar joined these devotees through her writings.

She is one of the contemporary fiction writer. She has written about the difficulties of militants and martyr's family and has revealed the courage of the militants and martyrs of 8 years holy defense.

This study intently intends to investigate the sustainability literature features and their evolution in Tojjar's work in analytical-descriptive approach. The results show that the most used features in her works are description of the front situation, the difficulties of militants, names and memories of martyrs and their couvage.
